My Resume

A quick look at where I've worked, what I've studied, and the tools I reach for most.

Summary

Education specialist pursuing a Master's in Digital Education at Xi'an Jiaotong–Liverpool University, with a Bachelor's in Preschool Education and hands-on experience integrating digital tools into kindergarten teaching. I design learner-centred, gamified digital activities and learning resources for young children, and I'm especially interested in where play, creativity, and educational technology meet. I combine classroom teaching practice with data-driven reflection — from developmental data analysis to interactive courseware — to make early learning warmer and more engaging.

Experience

Deputy Head Teacher (Intern)

Yancheng Kindergarten · March – June 2025

- Integrated digital tools into daily teaching and designed gamified digital teaching activities to enhance children's participation and improve teaching effectiveness.
- Used digital observation tools and Excel to record and organize children's development data, completed electronic data analysis, and provided data support for teaching improvement.

- Collaborated with teachers to create digital teaching resources (short videos, interactive courseware) and promoted the application and popularization of digital technology in kindergarten teaching.

Deputy Head Teacher (Intern)

Yancheng Tinghu Kindergarten · October 2025 – January 2026

- Assisted in digital art activities, guiding children to use simple digital painting tools to express creativity and integrate digital technology with art education.
- Used Microsoft Office and online tools to organize teaching records and create digital plans.
- Communicated with parents digitally, pushing digital family education resources and popularizing related concepts.

Vice Minister of Work-Study Department

School of Educational Science, Self-Discipline Committee · June 2023 – September 2024

- Managed campus work-study positions, recruitment, scheduling and attendance.
- Assisted in scholarship and financial aid application, review and statistics.
- Developed strong organization, coordination and data management skills.
